GPs across Berkshire West will be open this Good Friday and Easter Monday as the NHS steps up its work around the coronavirus outbreak.

The majority of the 47 practices in the area will be operating as usual giving patients telephone access to medical care and advice. They will also be co-ordinating care with neighbouring surgeries to make sure people in their areas are looked after.

High-risk areas in the UK

Who is most at risk, by better understanding symptoms linked to underlying health conditions

How fast the virus is spreading in your area

Nurse Laura Kirby-Deacon wants people to send small handcrafted hearts to give to patients who contracted Covid-19 and their families.

Ms Kirby-Deacon, who works as a sister at the Great Western Hospital's intensive care unit, in Swindon, said the hearts could bring comfort to families, who have not been able to see a loved one before they die.
